

NT-TB25 TRANSFER BLOWER

The NT TB25 is our 25HP direct drive transfer blower. The powerful direct drive design allows for a smaller footprint and rigid power delivery. The steel fabricated housing and frame provide long life while protecting the fan and motor. Northtech Transfer Blowers with controls and round pipe connection fitting make start up quick and easy.

MACHINE HP: 25 HP

DIRECT DRIVE (MOTOR): 25 HP

VOLTAGE, FREQUENCY: 230/460 Volt 60HZ

PHASE: 3 Phase

AMP REQUIREMENT: 68 / 34 Amps

TOTAL MACHINE HP: 25 HP

APPROVED ELECTRICAL PARTS: CE Approved Components

DUAL VOLTAGE MOTORS: 230/460 Volt

CONTROL VOLTAGE: 220 Volt

ASSISTED START: Wye Delta

DUST PORT SIZE INLET: 18 Inch

IMPELLER: 7" x 27" Impeller

TRANSFER BLOWER INLET: 18 Inch

TRANSFER BLOWER OUTLET: 20 Inch

FRAME CONSTRUCTION: Steel Construction
